

## YORK RECYCLING CENTER

# IMPORTANT NOTICE

We will no longer be able to accept recycled plastics that are not clean. Please make sure all cans, bottles, jar, etc. are cleaned out completely. Please remove all caps before recycling. Metal caps can be recycled with metals. Plastic tops will not be accepted. As per our previous policy, we only recycle plastics that are used for food items.

We are sorry for this inconvenience but this request comes from the NYS DEC Bureau of Waste Reduction and Recycling. Our vendor can refuse to accept our recyclable items if their request is not met.

We will also no longer accept propane tanks as we do not have a facility that will dispose of these for us.
